

Backed by Real-World Results

Independent, community-based data shows that rooms with Viconic Fall Defense are overwhelmingly safer. The numbers below tell the story: fewer ER visits, fewer severe injuries, and better outcomes for residents and providers alike.

Rooms with Viconic: Safer by Every Measure

	Without Fall Defense	With Fall Defense	
Total Falls	2344	423	
Injuries from Falls (minor & severe)	484	42	
Percentage of Falls with Injury (minor & severe)	20.6%	9.9%	52% ↓
Severe Injuries from Falls*	104	3	
Percentage of Falls with Severe Injury*	4.4%	0.7%	84% ↓
Fall-Related ER Visits	135	8	
Percentage of Falls with ER Visits	5.8%	1.9%	67% ↓

2021-2026 Composite Fall Data: Rooms with Viconic Compared to Those Without
Outcomes show statistically significant reductions at the 95% confidence level, exceeding accepted healthcare research standards.

*Includes fracture and head trauma

The Viconic Value Proposition

- **Proven Protection:** 84% reduction in severe fall injuries and 67% fewer ER visits.
- **Resident-Centered:** Helps preserve independence and quality of life.
- **Provider Confidence:** Reduces liability, costs, and stress on staff.
- **Designed to Fit:** Seamlessly integrates in both new construction and remodels.

“What we’re seeing is fewer people going to the ER—and even fewer with serious injuries. That speaks volumes.” — Steve Muller, COO, Garden Spot Village

With Viconic Fall Defense, fall protection is built in—under every step.
