Ecumen Reduces Severe Fall Injuries to Zero with Viconic

ECUMEN®

Lakeview
Commons

Results

Over the first eighteen months, fall-related injuries were dramatically reduced:

- **0% severe injuries**
- **0% ER visits**
- **70% fewer injuries overall**

"We've seen a dramatic difference. In rooms with Viconic, we had zero severe injuries and zero ER visits."

*Anne Stepenick, Clinical Director
Ecumen Lakeview Commons*

At Ecumen Lakeview Commons in Maplewood, Minnesota, resident safety is paramount—especially in memory care, where falls can be both frequent and potentially life-altering. To address the risk, Ecumen equipped a portion of its memory care apartments with Viconic® Fall Defense™ and tracked outcomes over time, comparing results against rooms with standard flooring.

The findings were clear: rooms with Viconic had significantly fewer fall-related injuries and no severe injuries at all.

0% Severe Injuries. 0% ER Visits.

Over an 18-month period, Lakeview Commons saw stark differences in fall outcomes:

- Rooms with standard flooring had a 15.9% injury rate and a 5.5% severe injury rate.
- Rooms equipped with Viconic had just a 5.0% injury rate—and 0% severe injuries or emergency room visits.

This dramatic improvement reinforced Viconic's value as a passive, always-on solution for reducing risk without compromising the look or feel of the home environment.

Smarter Safety. Less Stress.

The impact of a fall goes well beyond the fall incident. "It affects a resident's wellbeing, staff time, family involvement, even end-of-life decisions," observes Anne Stepenick, Clinical Director. "Anything we can do to reduce injury helps everyone."

A Strategic Fit for Safer, Smarter Senior Care.

Ecumen's mission is rooted in empowering older adults to navigate aging with dignity, support, and purpose—and purposeful innovation plays a central role in that strategy. Viconic Fall Defense™ aligns seamlessly with that vision, offering both measurable results and meaningful reassurance.

For senior living communities focused on improving outcomes, building family trust, and delivering safer environments, Viconic offers a passive safety solution with proven results.
